Child Welfare Transformation – Lead Purveyor

Role:
The role of “Purveyor” will represent the Florida Safety Decision Making Methodology (FSDMM) during implementation in the SunCoast Region. The Purveyor will actively work to implement the FSDMM to ensure consistent practice application and fidelity of the practice model.

Duties and Responsibilities:
This is advanced professional work assisting both leadership and field staff during pre-implementation and implementation activities. This position will possess competency in the practice model and will be available to provide technical assistance. This position will work in cooperation with all levels of staff in promoting the development of knowledge, skills, and application of the FSDMM.

• Reviews casework, assessments and safety plans with field staff, and provides consultation and direction to ensure appropriateness, clarity, quality, thoroughness and proper documentation;

• Provides real-time support/guidance by scheduling field assessments (random and scheduled) during investigative activities conducted by field staff to provide on-the-job training;

• Assist in providing guidance to field staff by coaching and modeling during consultations and other activities integral to the FSDMM;

• Coach and assist field staff with documenting aspects of investigations and case management (i.e., Danger Assessments, Family Functioning Assessments, Protective Capacity Assessments), by updating the appropriate information systems;

• Serves as member of SunCoast Region team responsible for developing system-based solutions to training and development issues or concerns;

• Based on field experience and observations provide recommendations to the Department’s Program Office on enhancements to both CPI pre-service and in-service training to ensure the development and maintenance of a comprehensive and relevant training curriculum;

• Provides technical assistance for FSFN related to the FDSMM tools.

• Monitors case files utilizing Quality Management tools to ensure the FSDMM is
being applied consistently and with fidelity to the practice model.

- Maintains working relationships and ongoing communication with other Purveyors during implementation to ensure uniformity of guidance.
- Provides feedback to the SunCoast Region team throughout implementation via meetings and conference calls.

_The position will perform all job tasks in accordance with laws, rules, regulations, policies, and requirements applicable to state and federal laws or procedures._

**Minimum qualifications:**
- Current valid State of Florida drivers license;
- A bachelor’s degree from an accredited college or university;
- Two years of child protective investigative or case management related experience;

**Requirement(s):**
- Circuit and regional travel
- Certification in the FSDMM

**Preference(s):**
- Bachelor’s degree in social work, behavioral science, criminal justice, nursing or education field
- Certified Trainer
- Certified Operations Review Specialist/Quality Assurance Reviewer
