Proficiency Process for Child Protection Investigations Supervisors

**Introduction**
Child Protection Investigations Supervisors (CPIS) are charged with critical performance expectations to serve our most vulnerable clients; our children. Performance expectations for CPIS staff ensure that child safety is upheld with every family we encounter within our practice. These expectations include, but are not limited to, ensuring quality of the frontline work, ensuring productivity, promoting performance improvements, executing training and development of their staff, and promoting a supportive work environment.

Child Protection Investigations Supervisor proficiency is critical in ensuring adherence of fidelity to the Florida Child Welfare Practice Model and in addressing child safety threats with the sense of urgency needed. This process allows for the ongoing development of skill in the area of coaching, supervision, and consulting as it pertains to Florida's Practice Model. This process establishes a formalized proficiency process for the Department of Children & Families and applies it to staff who are responsible for conducting case consultations and for direct supervision of investigators. The proficiency process ensures each CPIS has the knowledge, skill, and ability necessary for case analysis and consultation.

The proficiency assessment will measure knowledge and skill set within the Florida Child Welfare Practice Model. The proficiency assessment looks at three core skill areas —
- Understanding of the Practice Model constructs/elements.
- Ability to provide consultative feedback via discussions and written analysis.
- Ability to provide a learning opportunity for staff development.

**Competencies, Professional Behavior, and Performance Measures**
The Department of Children & Families will be staffed with employees who are proficient in the Child Welfare Practice Model in relation to their specific position. Performance Measures used within this process are derived from the Supervisor Performance standards and Operating Procedures. An example of proficiency items, competencies and professional behaviors, and performance measures is depicted in Appendix 1.

The candidate by participating in the process agrees to submit their own work that demonstrates their skill sets and competencies.

**Candidate Selection**
CPI Supervisors hired or promoted prior to September 1, 2015, who have not gone through this or the Critical Child Safety Practice Expert (CCSPE) proficiency process successfully in their previous...
position must begin the proficiency process before June 30, 2017. Region leadership will determine the order in which supervisors, herein referred to as “candidates” will begin the process each cycle. The Office of Child Welfare (OCW) will determine how many candidates will need to be deemed proficient to ensure that the overall region goal is met.

**Proficiency Assessment Steps**
The proficiency steps below must be completed in order.

**Step 1 Case Selection:**
Region leadership will assist the candidate with the selection of the date that they will begin Step 1 which will also be the date their sample of three to five cases is due to OCW for review selection. The candidate, with region assistance and coordination, will select three to five cases from varying CPI employees in their unit that require an initial consultation and that are non-Rapid Safety Feedback cases. Selected case consultation recordings will need to reflect consultations conducted a maximum of 14 calendar days prior to their selected sample due date. Selected case intake numbers and recordings are required to be provided to the designated OCW point of contact by the sample due date previously selected by the candidate and region point of contact (POC). One of the three to five previously selected cases will be randomly selected for proficiency review. No late submissions will be accepted.

**Step 1:**
**Successful demonstration of consultative feedback and written analysis skills.** This assessment will evaluate the candidate’s competencies and professional behaviors as the candidate is observed (via recorded consultation) conducting an initial supervisory consultation, with a Child Protection Investigator (CPI) assigned to the selected open child protection investigation case. In addition to consultative feedback, the candidate will demonstrate the ability to write an appropriate consultation assessment summary. To achieve proficiency, the candidate must be able to articulate appropriate goal focused feedback utilizing practice model concepts/constructs and demonstrate appropriate documentation and assessment competencies through the written consultation assessment summary of the case consultation conducted. One designated assessment instrument will be utilized to score the consultative feedback and written consultation assessment completed by the candidate. The written consultation assessment must be completed in the Florida Safe Families Network (FSFN) within 48 hours of the consultative feedback session with the CPI.

**Step 2 Case Selection:**
Region leadership will assist the candidate with the selection of three to five closed non- Rapid Safety Feedback cases from varying CPIs in their unit to be selected for this process. Cases must have been closed no later than 3 months prior to the case selection but after September 1, 2016. Of the three to five selected cases at least one must be designated as “safe” and at least one “unsafe”. They all must have at least one prior intake and must be part of the CPI’s caseload wherein they have been primary supervisor and have provided all supervisor consultations throughout the life of the investigation. Selected case intake numbers must be submitted to the designated contact. One of the three to five previously selected completed closed cases will be randomly selected for proficiency review. No late submission will be accepted.

**Step 2:**
**Must demonstrate the ability to provide sufficient supervisory guidance related to information collection, assessments, and decision making of key practice model constructs within a randomly selected closed case in the candidate’s caseload.** This assessment will evaluate the
candidate’s performance measures as demonstrated through the review of a closed child protection investigation case that was guided and supported by the candidate as the primary supervisor on the selected case. Supervisor consultations must correspond with how safety interventions occur by targeting key decision-making points within the Family Functioning Assessment process. A standardized assessment instrument and scaling definitions will be used to score this step.

**Proficiency Tracking**
The Office of Child Welfare will track the completion of the process and maintain a registry of all candidates deemed proficient.

**Results Disagreement**
When there are disagreements about the results of a review the local CCSPE Manager will be contacted and review the case. If the CCSPE Manager agrees with the results they return to the person who had the concerns and discuss the review with them. If the CCSPE Manager does not agree with the results they must identify the indicators they do not agree with and provide a write up for each of these indicators. The review will then be sent to a second designated reviewer along with the CCSPE Manager concerns. The second reviewer will review the case, the original review, and CCSPE Manager’s concerns and then provide a response for why each indicator should be changed or stay the same. If any indicators are changed the final score will be amended and a new write up will be sent out. The results from the second reviewer will be final.

**Passing the Proficiency Process and Unsuccessful Attempts**
To pass Step 1 and Step 2 the candidate must receive an 80% on each step. If the candidate does not successfully pass Step 1 during the first attempt the candidate will have up to thirty working days to complete a Proficiency Process Support Plan before beginning a retake of Step 1. After the second attempt the candidate will move onto Step 2 regardless of whether or not they pass Step 1. If the candidate does not successfully pass Step 2 during the first attempt the candidate will have up to thirty working days to complete a Proficiency Process Support Plan before beginning a retake of Step 2.

If the candidate successfully passes Step 1 and 2 during their first or second attempt the candidate has successfully completed the proficiency process.

If the candidate does not successfully pass Step 1 and Step 2 after second attempts at each step the candidate will not be able to continue in their current supervisory position. If this occurs Region leadership will follow the Human Resources protocol for proficiency process completion.

If the candidate successfully passes a step during their first or second attempt, but does not pass the other step after the second attempt the region will work with the candidate to establish a 60 day Proficiency Process Support Plan to continue the candidate’s ongoing development of skills in the areas of coaching, supervision, and consulting as it pertains to Florida’s Practice Model.

At the end of the 60-day Proficiency Process Support Plan the candidate will be provided a third opportunity to successfully complete the step they previously did not pass. If at that time the candidate still does not achieve success the candidate will not be able to continue in their current supervisory position. If this occurs Region leadership will follow the Human Resources protocol for proficiency process completion.

The Office of Child Welfare will track all steps through completion and maintain a registry of all
candidates deemed proficient.

**Reviewers**
Candidates will be deemed proficient by the designated Critical Child Safety Practice Expert (CCSPE) that has been deemed Expert Proficient by Action for Child Protection as well as Action for Child Protection staff. CCSPEs will not be able to deem anyone in their own region proficient. The Office of Child Welfare will provide oversight for the proficiency process.

**Notification**
Results will be sent to the designated regional point of contacts who will then inform leadership and/or the candidate.
## Competencies, Professional Behavior, and Performance Measures

<table>

**POSITION TITLE: ALL SES POSITIONS - PERFORMANCE EXPECTATIONS**

**PERFORMANCE EXPECTATION TITLE: PROFESSIONALISM**

**PERFORMANCE EXPECTATION 1 - DESCRIPTION:** Demonstrates professionalism through work habits and approach toward customers, teammates and leadership as indicated by:

Indicator 1: **Human Relations Skills** - Demonstrates professional competency and works well with others; communicates clearly and listens effectively; keeps others informed.  
Indicator 2: **Administrative Skills** - Schedules personal leave requests in advance and ensures work assignments are covered; submits and approves timesheets within required time frames.

Indicator 3: **Self Direction** - Is well organized; uses time effectively; acts independently; Takes the initiative and is proactive with regard to work assignments.

Indicator 4: **Self-Motivation** - Motivated to succeed; extends personal resources; builds on strengths and works on deficiencies.

Indicator 5: **Relationships** - Develops and maintains effective working relationships with other departmental managers, state managers, media, service recipients and the public.

Indicator 6: **Manages Change** - Initiates change effectively and adapts to necessary changes in operations; Motivates employees to have a positive attitude towards operational changes; Demonstrates a positive attitude when given assignments.
