This webinar will provide information on demographics, traumatic impact, permanency, engagement and well-being associated with children and families of the incarcerated. Additionally, the question of whether it is beneficial for children to visit their incarcerated parent or not continues to be a topic of debate and the goal of this webinar is to share information and ideas to offer an opportunity for individuals to decide what's best for their specific cases.

Participants will engage in collaborative activities promoting creative thinking to allow for an interactive training. The expectation is that everyone will share case related issues/concerns (excluding specific identifying details).

As a result of the level of participation requested space will be limited; so don't miss out, please register as soon as you can.
