# Child Investigations and Special Conditions Participants Detail Report

---

## Functionality Overview

This is a new report that provides the ability to list the participants associated with a Child Investigation or Special Conditions Referral based on several criteria. It can operate independently based on user entered criteria, or can be used to drill into the detail behind totals on all of the above reports.

This report is accessed from the Child Investigations and Special Conditions Summary Report.

This report runs on demand. If accessed from an associated report, the report is filtered based on the Child Investigations and Special Conditions Referral selected for that report. If run directly, the user can specify the received from to period and or the closed from to period. When run on-demand, the report is not stored automatically.

## Selection Processing

This report selects data based on the following criteria.

Universe	Business Rules
Child Investigations	Select all participants associated with Child Investigations and Special Conditions Referrals selected in the associated report, or for the criteria specified by the user running this report on demand.
