Child Investigations and Special Conditions Detail Report

Functionality Overview

This is a new report that replaces the Child Investigations and Special Conditions Status Report. Due to the large number of columns included in this report, the only supported format is Microsoft Excel.

This report is accessed from the Child Investigations and Special Conditions Summary Report (see next section). In addition to accessing this report as a drill down from the Summary report, it may be accessed directly. It has the ability to drill into the number of sequences associated with a Child Investigation to see detailed information for each sequenced intake.

This report runs several times a day and generates a notification to the group of users identified as the audience for this report. These scheduled runs are stored historically and may be accessed directly by the user.

There are now two views of this report so the terms "Summary" and "Detail" are added to the title.

Selection Processing

This report selects data based on the following criteria.

Universe	Business Rules
Child Investigations	Select all Child Investigations and Special Conditions Referrals that are open, or closed within 30 days of the report run date.

Case Information Block Layout

Case Information			
Case Name	FSFN Case ID	Case Type	Case Status
Heart, Kate	100342994	In-Home - Court Ordered Supervision	reopened
Gartner, Frankie	100484514	Special Condition	reopened
Robott, Dawn	101105989	Investigation	closed
Robott, Leslie	101130538	Investigation	opened
Robott, Mary	6501069	Out-of-Home - Court Ordered	opened
Robott, Monica	100241210	Investigation	reopened
XYZ Academy	101111657	Investigation	closed
XYZ Children's Academy	101129711	Investigation	opened
Palmer, Gerry	101108431	Special Condition	closed
