Services Offered

BETA Center is a private, nonprofit organization with 35 years of experience helping families, regardless of age or economic status, in the greater Orlando area including Orange, Osceola and Seminole counties. With a focus on parenting, teen moms and at-risk families, BETA Center changes behaviors and lives. The agency offers a wide range of services to support children and families, increase healthy family functioning and prevent child abuse and neglect.

- Provide a safe and accessible place to help stabilize families in crisis.
- Meet the critical needs of pregnant and parenting teens with comprehensive services and a holistic approach.
- Provide developmentally stimulating child care for at-risk infants/toddlers
- Strengthen families by educating and supporting youth and parents.
- Overcome the resistance of high-risk clients to open the door to change.
- Every child will experience the positive and nurturing parenting that is vital to their success

- Parenting Education Services
- Pregnant/Parenting Teen Program
- Emergency Family Support Services and the Residential Program

Services

UCP of Central Florida offers support, education and therapy helping children ages birth to 21 achieve their optimal potential. Physical, speech and occupation therapy is also offered during the school day and/or outpatient therapy and rehabilitative services. UCP’s school and therapy programs are geared toward children with and without disabilities. UCP’s education and therapy teams collaborate closely with physicians and other professionals to provide each child with a comprehensive interdisciplinary approach where families are an essential part of the team.

As a tuition-free public charter school, UCP offers school options for children with and without disabilities from birth to fourth grade and also offers a middle, high school and college transition program for students with disabilities. Programs vary depending on the location. In addition to school programs, UCP’s Physical Therapy focuses on preserving, developing and restoring physical function. Speech Therapy develops verbal and non-verbal communication skills, as well remediation of oral-motor and feeding challenges. Occupational Therapy aims to improve fine motor, self-help, sensory motor and visual perceptual skills. All three disciplines utilize diverse approaches, techniques, devices, physical agents and modalities to help each child reach their individual goals.

Services are provided at UCP’s six campuses as part of their in-house educational program, as well as on-site outpatient therapy, summer enrichment and services at local childcare facilities. Many education programs are free for eligible children. Medicaid, commercial insurances and private pay are acceptable for therapy.

Services

- Outpatient
  Access Center/Crisis Emergency Support
  The Access Center is the 24-hour-a-day, seven-day-a-week point of entry into Park Place. Clients are assessed and linked to needed treatment. Crisis Support is provided for any clients who may be in danger of harming themselves or others.

- Outpatient Therapy and Medical Services
  The program’s purpose is to provide comprehensive psychiatric and psychological services to children in order to alleviate symptoms of psychological distress and improve quality of life. In addition, counseling is available for children with mental health disorders and problems.

- Case Management
  These services are offered to children with mental illness who are in need of ongoing support and guidance by helping them to access the community-based services they need.

- Inpatient
  Crisis Stabilization Unit
  We are a Baker Act receiving facility, providing acute care services on a 24-hour-a-day, 7-day-a-week basis. We meet the needs of children who are experiencing acute crises.

List of Affordable Rentals

Public Housing Agencies
Florida Housing’s Locator Services Links Households With Affordable Rental Units
Services Offers Real-Time Rental Information

Florida Housing provides a web-based housing locator service linking people with affordable and available rental housing throughout Florida. FloridaHousingSearch.org allows landlords, including providers of critically needed affordable and special needs housing, to advertise their properties free of charge, while helping renters to find a property and that fits their needs, including accessibility. Through a partnership with the Florida Department of Elder Affairs, FloridaHousingSearch.org also includes a separate search engine for locating assisted living facilities and adult family care homes.

The expanded housing locator service allows all private and publicly funded landlords statewide to list rental units that are affordable for households who earn up to 120 percent of their area’s average median income. FloridaHousingSearch.org currently has more than 150,000 affordable rental units registered in its database, with approximately 10,000 of those listed as available. “With the support of State Agencies, local governments and community stakeholders we have a goal of having at least 180,000 units registered in the locator’s database.

Every month more than 100,000 searches are conducted through FloridaHousingSearch.org and more than 5000 calls are handled by the locator’s toll-free call-center. “We can’t the locator to serve as an invaluable tool for families, persons with disabilities, elderly persons or households with special needs that are searching for affordable housing in their communities,” said Florida Housing’s Executive Director, Steve Auger. “It is important for Florida Housing to provide this public service, we especially think it is vital now during these tough economic times and in planning ahead to serve displaced persons during other crises, such as natural disasters.”

The public can search for properties with AVAILABLE units listed on FloridaHousingSearch.org on line 24 hours a day or by contacting the toll-free, bilingual search support call center at 1-877-428-8844 (TTD/TTY: 7-1-1) Monday through Friday, 9am to 8pm EST. the call center staff assists persons with conducting searches, as well as providing affordable housing resources information and referral services. The web site and call-center serves English and Spanish speaking persons.
In addition, the web site connects people to other housing resources through on-line links and provides helpful tools for renters such as an affordability calculator, rental checklist, and renter rights and responsibilities information.
