Sunshine Parenting brings you an effective way to parent & teach that maintains dignity and respect for both the adult and the child. We offer new approaches and techniques to age old problems and the new problems created from our ever changing world.

Parenting and teaching today’s kids produces more challenges than generations ago. Many techniques and styles that our own parents and teachers used simply don’t apply or are not effective. America’s parenting experts at the Love and Logic® Institute teach us that we do not need to be psychologists to raise responsible and respectful kids.

Our programs bring you realistic and practical techniques that you can put to use right away. Love and Logic® is easy to learn, fun to use and applies to all ages. Attending one of our workshops is a great way to treat yourself in a healthy way. Come join the fun and find out how parents and teachers all around the country are raising respectful and responsible kids without raising their voice or breaking a sweat.

The principals and techniques learned in our programs will help you:

• Set and enforce limits in a loving way.
• Handle Misbehavior
• Neutralize Arguments
• Avoid Power Struggles
• Teach kids to listen... the FIRST time.
• Raise Responsible Kids
• End anger, lectures, threats and warnings.
• Make parenting fun and rewarding!

Contact your local facilitator to schedule an introductory session for any of our Parent or Educator programs.

Parent Programs

Join one of our independent facilitators in one of these fun and funny workshops to learn how to bring Love and Logic® into your family life.

Becoming a Love and Logic Parent®

This fun filled 5-6 week workshop teaches the Love and Logic® philosophy and the psychology behind it in a way that parents can relate. Parents learn the easy techniques and skills to discipline without anger, lectures, threats or repeated warnings. This workshop is formatted for parents of all ages.

Graceful Parenting

This 5-6 week workshop teaches everything in the Becoming a Love and Logic Parent® workshop, PLUS how the Love and Logic® philosophy supports the Christian faith. Your facilitator will list examples and scriptures of how God, our Father, modeled parenting and how we can use Love and Logic® to parent our own children in the manner He modeled for us. Available in select cities. Contact your local facilitator for details.

Early Childhood Parenting Made Fun®

This 3-5 week workshop shares the Love and Logic® philosophy that is geared toward parents with children under six years of age.

Educator Programs

Our School In-service programs will bring your teachers practical techniques they can use in their classroom to stop student disruptions, end student arguing and back talk and give them more time to do what they love - teaching! CEU credit available. Graduate credit pending.

9 Essential Skills for the Love and Logic® Classroom

This program consists of nine independent modules that contain powerful skills that are easy to learn and can be applied immediately. This program builds strong schools where teachers have time to teach and students want to learn. Prevention Instead of Detention!

• Put an end to student arguing and back-talk.
• Teach responsibility by using consequences with empathy.
• Preserve the learning environment when kids are disruptive.
• Set limits without reminders, lectures or threats.
• Avoid power struggles by giving choices within limits.
• Teach kids how to solve their own problems.

Classroom Refreshers and School In-service

Whether your school is new to Love and Logic® or needs some classroom refreshers, our facilitators can work with your school to find the best solution for you. Invite one of our independent facilitators to re-energize your teachers and give them practical techniques they can use in their classroom today.

What is Love and Logic®?
The authors at the Love and Logic® Institute, Inc. explain it this way:

Love allows children to grow through their mistakes. Logic allows them to learn from the consequences of their choices.

The Process:

Shared Control
Gain control by giving away the control you don’t need.

Shared thinking/decision-making
Provide opportunities for the child to do the greatest amount of thinking/decision making.

Equal shares of empathy and consequences
An absence of anger causes a child to think and learn from their mistakes.

Maintain the child’s self-concept
Increased self-concept leads to improved behavior and improved achievement.

Contact your local facilitator to register in one of our workshops to learn how to make Love and Logic® part of your everyday life and make parenting and teaching fun again.

The Sunshine Parenting team offers the Becoming a Love and Logic Parent®, Early Childhood Parenting Made Fun®, and 9 Essential Skills for the Love and Logic Classroom® workshops in the state of Florida. These programs were developed by Jim Fay, Charles Fay, Ph.D., and Foster W. Cline, M.D. of the Love and Logic® Institute, Inc., in Golden, Colorado.
