SUBJECT: Get Ready for FSFN Enhancements – Levels of Licensure

PURPOSE: The purpose of this memorandum is to update all child welfare stakeholders on the status of the Florida Safe Families Network (FSFN) enhancements scheduled to be implemented on April 12, 2019 so final preparations can be made locally to "Get Ready" for the changes.

BACKGROUND: Florida’s child welfare system has been under the Title IV-E Demonstration Waiver since 2006, allowing the state to forego certain provisions of the Title IV-E Social Security Act, yet still claim Title IV-E dollars. The Department of Children and Families (department) uses much of this revenue to fund our unique Community-Based Care child welfare system. This waiver is set to expire on September 30, 2019 and the department anticipates it will lose approximately 90 million dollars. Therefore, with the sunsetting of the Title IV-E Demonstration Waiver, the department has implemented the Path Forward initiative which includes various programs that will draw down additional funding to help support the state’s child welfare system. One of these programs is the Guardianship Assistance Program (GAP).

GAP is a Title IV-E funded program that would allow the state to draw down funds from the federal government. In accordance with the implementation of this program, the foster care system needs to be restructured to implement levels of licensure. In 2018 s. 409.175, Florida Statutes, were updated to reflect these new levels of licensure.

High Level Overview of Levels of Licensure Changes:
Various stakeholder groups will be affected by the levels of licensure changes differently, but the following changes apply to all stakeholders:

- There will be five Levels of Licensure classifications for family foster homes licensed by the department.
  - Level I - Child specific foster home
  - Level II - Non-child specific foster home
  - Level III - Safe foster home for victims of human trafficking
  - Level IV - Therapeutic foster home
  - Level V - Medical foster home
