PLEASE NOTE

Access to FSFN person or case information must only occur when there is a legitimate business purpose. FSFN must not be used to access any of the following:

- Persons or cases in the news, or
- Persons or cases about which you are “curious”, or
- Persons or information about your own personal case, or
- Persons or cases of family members, or
- Persons or cases of friends, neighbors or acquaintances, or
- Any other persons or cases for which there is no legitimate business reason for you to access the information.

Please use common sense when accessing FSFN; if you have any questions about the appropriate use of FSFN, please contact your supervisor and/or your agency’s IT Support personnel.

FSFN Resources/Information

- FSFN Online
  - Location of training sandbox, security forms, user profile information
- FSFN Reports
  - Contains information about the reports in FSFN
- Training
  - Location of web based training, User Guides, How Do I Guides, Job Aids and Site Contacts
  - User Guides and How Do I Guides must be referenced prior to calling the Helpline.

These demos should be completed by you at your own pace:

- Forms
- Desktop Changes
- Meetings
- Person Merge and Delete
- Unified Home Study

Agendas, Minutes and Reports

- Information regarding helpdesk reports, meetings, status reports and conference calls

Technical Information

- Includes information on the system and how to create shortcuts, etc.

FSFN Contacts

- Contact information for FSFN personnel; workers are never to contact CGI directly.
FSFN Web Based Training Courses

Hotline Intake and CI Unit Course
- procedures for child and adult intake
- other intake and referral processes
- criminal background check

Child Investigation Course
- using FSFN in the receiving unit and for on call schedules
- documenting investigative processes and findings, for In-Home and institutional investigations
- completing special conditions referrals and child on child assessments

Ongoing Case Work Course
- using FSFN in day to day case work
- completing Service Referrals
- documenting service provision

- managing unit messages and links

Provider Course
- using the Provider module to create service and placement providers
- updating provider information
- assigning providers to workers

Reports Course
- using the Business Objects reporting tool interfaced with FSFN to access management, performance and financial reports generated from FSFN data
FSFN On-Line Security

User Groups
- Determine the user’s ability to access pages and reports.
- Determine the user’s ability to view, create, update, delete information and to execute approvals of specified pieces of work.
- Made up of one or more security profiles.

Security Profiles
- Defines security for one or more system resources and can be pages and/or reports.
- Identifies the types of system resources (pages, reports, ad hoc report views) that are accessible.
- Allows access to specific FSFN modules and related data.

Job Classes
- Defined in the system with designation if users with a specific job class can make case and provider assignments.
- Defines the level of approval authority.

Worker Assignments
- Defines the specific case or provider that can be updated.
- Not every worker receives FSFN assignments, so the assignment of the worker to a unit/user group is the minimum requirement to gain access to the system.
- FSFN associates every authorized user by linking their unique Florida user ID to a corresponding unique FSFN Employee ID.
- The user is associated with one or more worker unit assignments; which is associated to a user group with one or more security profiles.
- Each security profile contains the pages that the worker unit assignment can view and/or modify.

Employee Definition
The employee definition contains specific information about the individual employee:
- Login ID
- Work contact information
- Unit assignments
- Job class
- Security user group
Confidentiality Statement

Please read the following statement and provide your signature in the space indicated.

Florida Safe Families Network (FSFN) Confidentiality Notice:
Florida Safe Families Network is Florida’s method of receiving child abuse reports, documenting investigations, and recording all casework services provided to protect children. Florida Safe Families Network contains confidential and privileged information not to be shared with anyone unless authorized as defined in Chapter 39.202 F.S. Additionally, authorized individuals may only access those records for which there is a work related need to know.

Outliner Expandos Information

Outliner Expandos:
- Cases:
  - Used to view and update assigned cases and associated work tasks
  - Displays all cases managed by a worker and/or supervisor
- Case Name
- Case Type
- Most Recent Investigative Subtype
- Case Status
- Most Recent Intake Received Date
- County
- Case Address
- Displays and provides access to all case work by subject area in reverse chronological order, including case activity notes, by work subject in the following order:
  - Related People
  - Intakes
  - Remaining Case Work Categories in alphabetical order
  - T code - restricted (report on an employee)

Providers - work related to assigned Providers:
- Workers have providers assigned as they create relative placements or providers created for institutional investigations.

Worker - Supervisors only:
- Supervisors can view their assigned workers and assigned cases and providers
- Only on Supervisor's desktop

Approvals:
- Used to view and access work that is in the approval process or has been approved within the past 48 hours
- Used to store/display required approvals and related actions
- Displays work items (generated by the user) for which approval has been requested, as well as those requiring review for approval by the user

Intakes:
- Used to view intakes created by a worker (Hotline or Service Referrals)
- Displays intakes that have not been called out and/or linked to a case
- Lists:
  - Child Intakes
  - Adult Intakes
  - Special Condition Intakes
  - Service Referrals
  - Person Provider Inquiries
  - Intake type
  - Intake Name
  - Date the Intake was created
  - Worker who created the Intake
  - Designated Response Time

**Call Records:**
- Automatically created when information captured in Phoenix is pushed to the Web Service, through the Phoenix interface.

- Provided to minimize the Hotline counselor's workload when received call is certain type (i.e. hang up, message, etc.)

- The Hotline counselor creates an Intake page and links the Intake to a Case for those Screened Out calls that don't meet criteria for a report.
FSFN Search Tips

Case

First Name, Last Name

Search for a Case in First Name, Last Name Format

- Ex: Mary Hodgkins
- Enter Last Name in the “Last Name” field – Hodgkins.
- Enter First Name in the “First Name” field – Mary.
- TIP: To return variations of the first and last name entered, set the precision bar to low. This format is also used for Provider search.

Hyphenated Last Name

Search for a Case with a hyphenated last name:

- Ex: Last Name: Acorn-Squash
- Enter Last Name, hyphen, and Asterisk in the Last Name field: Acorn-*. 
- TIP: Add the first initial of the first name with an asterisk in the First Name field to refine the search results. This format is also used with Provider search.

Apostrophe in Last Name

Search for a Case with an Apostrophe in the Last Name:

- Ex: Last Name: O’ Gene
- Enter Last Name 1st initial, asterisk, Last Name 2nd initial with asterisk: O*G* in the Last Name field.
- TIP: Add the first initial of the first name with asterisk in the First Name field to refine the search results. This is also used with Provider search.

Intake Number or Historical Investigation Number

Search for a Case with an exact Intake number or historical Investigation Number:
